Reduce Costs

Training and support costs are reduced through a consistent and intuitive Windows standard interface.

Access Real-time Information

Drilldown and flexible reporting give real-time access to information.

Free Up Resources

One solution for human resources, payroll, and financials allows organizations to focus on learning initiatives.

Integrate e-Business and e-Learning

Leveraging Microsoft technology tools, programs, and solutions allows life-long learners to realize their full potential.

Protect Your Investment

Microsoft offers guaranteed upgrades to the next generation product through enrollment in its software enhancement program.

Adapt Your Solution

The Education Suite can be adapted to fit virtually any budget or size of organization.

Effectively manage the business requirements for educational organizations with a fully integrated solution built on Microsoft Dynamics NAV technology. Designed specifically for the K-12 and higher education sectors, the Education Suite streamlines processes by integrating human resource, payroll, and financial systems.

The screenshot displays the ODT Web Portal interface in a Windows Internet Explorer browser. The main window shows the 'Division Accounts - Account Summary' page with a 'Budget Manager' window open. The Budget Manager window displays a 'Purchase Invoice' for invoice # 63345, dated 09/24/06. The invoice details include the vendor 'Wayne Gretzky Elementary #99' and a table of items with columns for Number, Description, Budget Manager, Program, Quantity, Unit Cost, and Total Cost.

Number	Description	Budget Manager	Program	Quantity	Unit Cost	Total Cost
1-2-11-135-345	Computer Supplies & Services	105 - Ecole Monseigneur Louis Pasteur	001 - System	100.00	3.06	305.80
1-2-11-135-345	Computer Supplies & Services	108 - O'Toole Notre Dame School	001 - System	100.00	6.94	694.20
				Subtotal:		1,000.00
				Invoice Discount:		0.00
				Tax:		130.00
				Total:		1,130.00

The pace of technological change is rapidly accelerating and selecting a system based on Microsoft Dynamics protects software investments and allows users to leverage other Microsoft products including Windows Server, SQL Server, SharePoint, Microsoft Office, .Net, and InfoPath. The standard Windows interface allows users to quickly learn the system and reduces training and support costs.

The Education Suite utilizes Microsoft's .Net technology to bring information to the Internet where human resources, payroll, and financial functions can be easily accessed by employees via a web browser. Information is real-time and secure and requests can be made and approved online.
